

SEMINARIO

**FORMATION AND EVOLUTION OF GRANULAR  
GEOMATERIALS ON PLANETARY SURFACE**

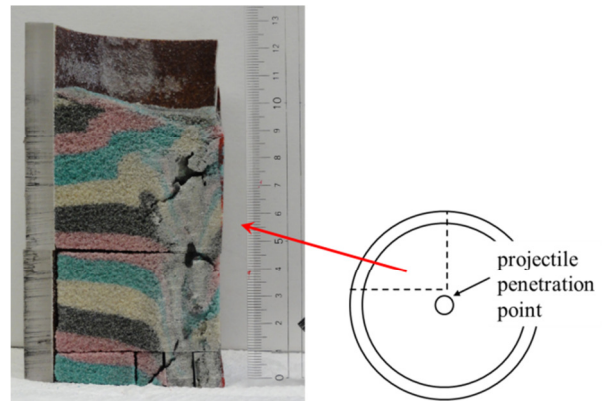

**Prof. Takashi Matsushima**

Faculty of Engineering, Information and Systems - University of Tsukuba (Japan)

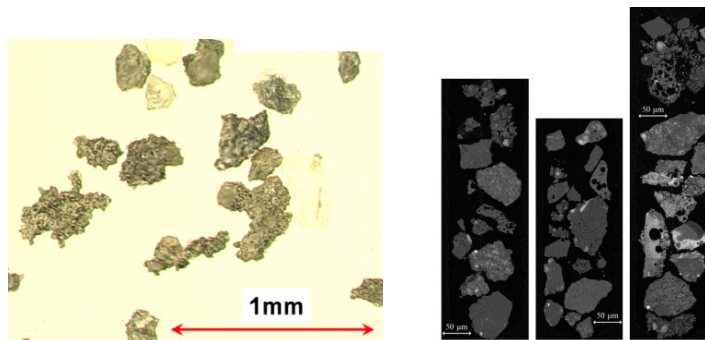

[http://granular.kz.tsukuba.ac.jp/index\\_eng.html](http://granular.kz.tsukuba.ac.jp/index_eng.html)

*Micromechanical aspects of natural  
formation process of geological grains*

*High pressure impact on geomaterials –grain crushing  
and structural evolution*

*Micro geomechanics of Lunar soil*
